- Participants must bring their own lunches. Refrigeration available.

Cloverbud Day Camp “Ag-citement” Down on the Farm

This program is a joint effort of Penn State Cooperative Extension and the Northumberland County Conservation District to provide quality opportunities for young children to learn about science “Down on the Farm”.

Our primary goal is to bring lots of “ag-citement” into the daily lives of the participants helping them to become “ag-literate”. Upon completion of the program, they will understand how agriculture touches their lives no matter where they live. And, it’s our hope that they will have fun, too!

During the 2009 program, youth will learn how fibers made from plant and animal products are used to make the clothes they wear.
